

Fool Yourself

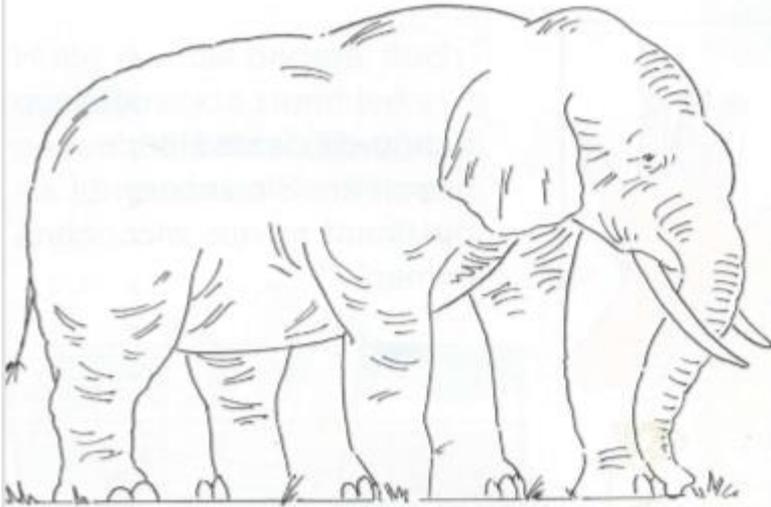

<https://rotor-lab.com>

Lilika

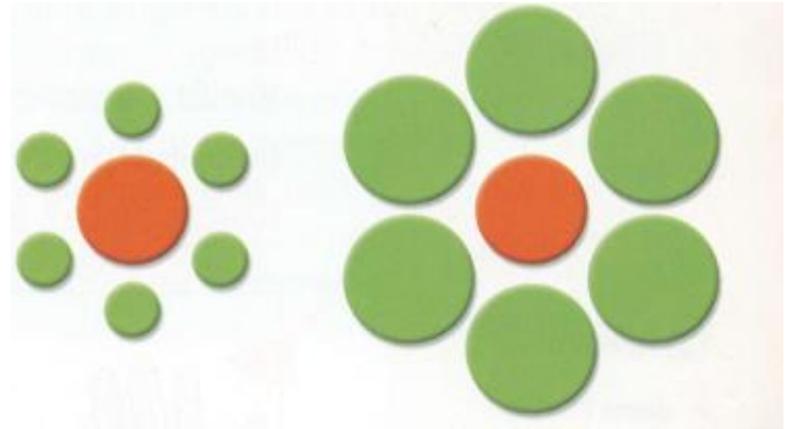

Sometimes things are not what they seem...
Have a look at the pictures below, what do you see?
Did your eyes fool you?

How many legs does the elephant? Go on
count them!

Elephants have four legs. But here it
looks as if it has eight legs.

Which one of the orange circles is bigger?

Both orange circles are exactly the same
size.
